## HEREDITARY RENAL DISEASES

### Guest Editors:

R. Torra, J. Ballarín and P. Barceló

### INTRODUCTION

- **Genetics and renal hereditary diseases**  
*P. Barceló, J. Ballarín and R. Torra*

### ORIGINALS

- **Molecular diagnosis of renal hereditary diseases**  
*E. Ars, R. Torra and A. Oliver*
- **Ethics in renal genetics**  
*J.-P. Grünfeld*
- **Autosomal dominant polycystic kidney disease**  
*V. E. Torres and P. C. Harris*
- **Autosomal recessive polycystic kidney disease**  
*G. Ariceta Iraola and X. M. Lens Neo*
- **The Alport syndrome**  
*B. Tazón, E. Ars and R. Torra*
- **Familial benign hematuria**  
*M. Praga, R. Torra and B. Tazón*
- **Nefronoptosis and medullar cystic disease: genetic aspects**  
*V. Álvarez Martínez and E. Coto García*
- **Cystinuria**  
*F. Rousaud, M. Palacín and V. Nunes*
- **Cystinosis: from cystine crystals to the cystinosine**  
*G. Pintos Morell*
- **Renal hereditary tubulopathies: from the clinic to the molecular biology**  
*J. Rodríguez Soriano*
- **The Fabry's disease**  
*R. Torra Balcells and J. Ballarín*
- **Molecular pathology of primary hyperoxaluria**  
*A. Santana, A. Torres and E. Salido*
